

Lost in Paradise

Sérgio Mendes

My little grasshopper airplane
Cannot fly very high
I find you so far from my sight
I'm lost in my own green light

Don't help me my love
My brother, my girl
Just tell your name
Just let me say who am I

A big white plastic finger
Surrounds my dark green hair
But it's not your unknown caress
It's not from your unknown right hand

Don't help me my love
My brother my girl
Just tell your name
Just let me say who am I

I am the sun, the darkness
My name is Green Wave
Death, salt, South America is my name
World is my name, my size
And under my name here am I

Don't help me my love
My brother my girl
Just tell your name
Just let me say who am I

My little grasshopper airplane
Cannot fly very high
