

# Completely

Serial Joe

I look into your eyes  
You turn away from me  
There must be something here  
You don't want me to see  
Cause when you're out with him  
You never hold his hand  
There must be something that  
I just don't understand

CHORUS:

I want you, you need me  
We fit all too completely  
I want you, to know that  
I need you to complete me

You should be here with me  
You need someone who cares  
You'll look to him for love but  
He just won't be there  
He'll only break your heart  
He'll hurt you in the end  
But I'll be waiting here  
I'll still be your best friend

CHORUS:

I want you, you need me  
We fit all to completely  
I want you, to know that  
I need you to complete me  
I want you, you need me  
We fit all to completely  
I want you, to know that  
I need you to complete me

BRIDGE:

Complete me  
'Plete me yeah  
To complete me  
I need you to complete me  
'Plete me yeah  
To complete me

CHORUS:

I want you, you need me  
We fit all to completely  
I want you, to know that  
I need you to complete me  
I want you, you need me  
We fit all to completely  
I want you, to know that  
I need you to complete me
