

Dream Girl

Serial Joe

Hey Girl, are you out there?
I can see you in my mind.
You've been messin' with my head
Now I need to... unwind
I saw you in my dream last night
Now I want to sleep forever
Girl you have got to see...
That we belong together

Where can I find you?
I just gotta know
This feelin' is amazing
Don't want to let it go

There you are again I see
You walkin' down the street
If I run around the corner
You'll be there and we can meet
I knew that when I found you mind would blow a fuse
But no more sleepin' through my days
Together we can't lose

[CHORUS]

Now that I've found you
You've just gotta know
This feelin' is amazing
Won't ever let it go!
