

How 'Bout No, Scott?

Set Your Goals

I can see your disapproval
or maybe you just can't relate
But this is what I live each day for
Won't go back! Had enough!

I can see your disappointment
when I see the look on your face
But I've just got to make my choices
No one else! Just for me!

Maybe you can't see!

I just can't fail forever
and some day I will set it straight
Taking chances to make things happen
for myself no one else but me!

We just can't fail forever!
and some day we will set it straight!
Taking chances to make things happen!
for ourselves; no one else but us!

This life, it's only for me
Hold back? I will never. I gotta break free
My bets have all been placed
so don't count me out!
