

## Cold Skin

## Seven Lions

Here I am again  
Floating through the silence in my cold skin  
Our bodies wearing thin

My fears tell me I'll never win  
Our bodies wearing thin  
Wearing thin  
Wearing thin  
Wearing thin

And there's darkness here (darkness here)  
The whole world I fear (I fear, I fear)  
And my rumours seem to drown  
(To drown, to drown, to drown)

But I won't let them take me down  
I won't let them take me down  
I won't let them take me down  
Down, down, down, ohhh

I won't let them take me down  
I won't let them take me down  
(Down, down, down, down, down)

I'll rise and I'll fall again  
Fighting off the violence in my cold skin  
Our bodies wearing thin

My fears tell me I'll never win  
Our bodies wearing thin  
Wearing thin  
Wearing thin  
Wearing thin

And there's darkness here (darkness here)  
The whole world I fear (I fear, I fear)  
And my rumours seem to drown  
(To drown, to drown, to drown)

But I won't let them take me down  
I won't let them take me down  
I won't let them take me down  
Down, down, down, ohhh

I won't let them take me down  
I won't let them take me down  
I won't let them take me down
