

December

Seven Lions

I saw
Your breath
Decorate the air

Snow blind
We love
A fire burning down

I gave
My breath
On your lips it froze

My heart
We love
A fire in the snow

Meet me once more
Where we met before
It's growing colder
Will you remember
To fall like the snow
Holding me close
Bring me winter
My dear December

Meet me once more
Where we met before
It's growing colder
Will you remember
To fall like the snow
Holding me close
Bring me winter
Bring me winter

My dear December

My dear December
My dear December
My dear December
My dear December

Meet me once more
Where we met before
It's growing colder
Will you remember
To fall like the snow
Holding me close
Bring me winter
Bring me winter

My dear December
My dear December

I saw
Your breath
Decorate the air

Snow blind
We love
A fire burning down

I gave
My breath
On your lips it froze

My heart
We love
A fire in the snow
