December

Seven Lions

I saw Your breath Decorate the air

Snow blind We love A fire burning down

I gave My breath On your lips it froze

My heart We love A fire in the snow

Meet me once more
Where we met before
It's growing colder
Will you remember
To fall like the snow
Holding me close
Bring me winter
My dear December

Meet me once more
Where we met before
It's growing colder
Will you remember
To fall like the snow
Holding me close
Bring me winter
Bring me winter

My dear December

My dear December My dear December My dear December My dear December
