Chasing You

Seven Mary Three

No communication with you Words don't believe the things they mean mean what you say say who you are

No communication with you This silence is thick but listen close I'm crawling through your radio

I can't keep a thought Am I? Chasing you, chasing you out Chasing you, chasing you out

No communication with you Tired of things we can't control We want them fixed Compatible

No communication with you The moment you leave the truth explodes from underneath her hiding place

I can't keep a thought Am I? Chasing you, chasing you out Chasing you, chasing you out

It's make believe It's in your mind Always in your mind It's deafening Distance between conditioning You and I

I can't keep a thought Am I? Chasing you, chasing you out Chasing you, chasing you out
