In-Between

Seven Mary Three

Hey man:

You're so complicated and mean maybe your system needs adjustment She is a famous people collector I'm juggling J-O-B The Judger

Maybe the words don't mean a thing They never fill the dead man's shoes Who killed the culture-hero trip? If it was me then it was you

You can be intimidating when people think you're complicated How could you be so in-between? What they want and what you need

"Man, you're so complicated and mean"
The young mustafah cleaner said
"Don't waste your mojo on a curse
Politic your angry reason out of bed"

And if your words mean anything make them a positive foundation Back it up with what you do wring the love out of frustration!

You can be intimidated when people think you're complicated How could you be so in-between? What they want and what you need
