

Very Nice

Seven Nations

Let's go play outside you seek I'll go hide
Wrong move you're it now it's truly just a game
Let's go fight with John he's strange he's always wrong
Let's build a church so we can have a place to pray
I know something about religion
I know something about this life
And I think there lies your contradiction
It's all very nice it's all very nice
It's very nice
We're so glad you came today's lesson is the killing game
We've found some other gang who thinks that we are wrong
As your leader I (I) say eye for an eye
Maybe let 'em go if they admit that we are right
I know something about religion
I know something about this life
And I think there lies your contradiction
It's all very nice it's all very nice
It's very nice
It's very nice
It's so nice to have you talk with me for awhile
So very nice
I know something about religion
I know something about this life
And I think there lies your contradiction
It's all very nice it's all very nice
It's very nice
