

Landslide

Seven Places

I feel crazy, hope is hazy right now
But I won't freak out, I won't freak out at the
Sound of the Landslide inside, fear wants to
Take my peace of mind, won't run, won't hide
I will lift my hands up high
In my trouble I have doubled my prayers
Because I need them, I need them like I need
The air landslide inside, fear wants to
Take my peace of mind, won't run, won't hide
I will lift my hands up high
Here's to the Name above all names
I will trust you Jesus, I'll be brave
I will live my life day by day
Because You're the only Truth, the only Way out
Of this landslide inside, fear wants to
Take my peace of mind, won't run, won't hide
I will lift my hands up high
Here's to the Name above all names
Here's to the only one who saves
I will trust you Jesus, I'll be brave
