

Fires and Storms

Seven Thorns

Have we learned from history?
Is now a better time?
Or will there be stupidity
In the tales of our life?

Today we make the same mistakes
Mankind is on its knees
We have found a better plan
We will change our history!

With steel in our hand
We will search throughout the land
Metal knight is on our ride
With metal by our side
Evil has no place to hide
We're the guardians from paradise!

They will try to stop our ride
Destroy our paradise
With hate they try to ruin our lives
But they can't withstand our metal pride!

You can't hide
We're the warriors of the divine light
We're the guardians of mankind
We're glorious!
Oh-oh-oh
Can't you see?
Metal is your destiny!

Metal is your destiny
Metal is your destiny!
