

## Spread Your Wings

Seven Thorns

Time has come  
But there's no hope for me  
Time just seem to pass me by  
Expectations? Has no news for me  
Nowhere to start  
But space enough to cry!

One way track  
No place for fantasy  
Your destiny is forced on me  
To be lost is what my future holds  
If that's your life  
No jump up and fly!

Spread your wings  
Feel the air through your hair  
Fly so high - don't be afraid!  
It's your time to be free  
If you spread your wings and fly!

Don't hold back  
Take all life offers you  
Chase your dreams - live for your life  
There's no limit up there in the sky  
Don't hold back  
Now jump up and fly!

It's your time to feel the love that it brings  
If you spread your wings and fly!

It's your time to feel the love that it brings  
If you spread your wings  
If you spread your wings  
If you spread your wings and fly!
