

Stronger

Seven Wiser

We won't go down as easy as you think
Together, we're stronger
Together, we all stand as one
Is it our young ones killing our loved ones?
Together, we're stronger
Together, we all stand as one
That you could tell us that it's for nothing
Together, we're stronger
Together, we all stand as one
I've seen us fall
I've seen us rise
We'll make a stand

We will be stronger
The next time we're out there
We are the ones that they have to fear
We've seen a million faces fall
Know that it brought us to it all

We're all fighting for what we believe in
Together, we're stronger
Together, we all stand as one
We taught our young ones, dying for someone
Together, we're stronger
Together, we all stand as one
Today we'll realize what is at stake here
Together, we're stronger
Together, we all stand as one
I've seen us fall
I've seen us rise
We'll make a stand

We will be stronger
The next time we're out there
We are the ones that they have to fear
We've seen a million faces fall
Know that it brought us to it all
