

## Stronger

Seven Wiser

We won't go down as easy as you think  
Together, we're stronger  
Together, we all stand as one  
Is it our young ones killing our loved ones?  
Together, we're stronger  
Together, we all stand as one  
That you could tell us that it's for nothing  
Together, we're stronger  
Together, we all stand as one  
I've seen us fall  
I've seen us rise  
We'll make a stand

We will be stronger  
The next time we're out there  
We are the ones that they have to fear  
We've seen a million faces fall  
Know that it brought us to it all

We're all fighting for what we believe in  
Together, we're stronger  
Together, we all stand as one  
We taught our young ones, dying for someone  
Together, we're stronger  
Together, we all stand as one  
Today we'll realize what is at stake here  
Together, we're stronger  
Together, we all stand as one  
I've seen us fall  
I've seen us rise  
We'll make a stand

We will be stronger  
The next time we're out there  
We are the ones that they have to fear  
We've seen a million faces fall  
Know that it brought us to it all
