Stronger

Seven Wiser

We won't go down as easy as you think Together, we're stronger Together, we all stand as one Is it our young ones killing our loved ones? Together, we're stronger Together, we all stand as one That you could tell us that it's for nothing Together, we're stronger Together, we all stand as one I've seen us fall I've seen us rise We'll make a stand

We will be stronger The next time we're out there We are the ones that they have to fear We've seen a million faces fall Know that it brought us to it all

We're all fighting for what we believe in Together, we're stronger Together, we all stand as one We taught our young ones, dying for someone Together, we're stronger Together, we all stand as one Today we'll realize what is at stake here Together, we're stronger Together, we all stand as one I've seen us fall I've seen us rise We'll make a stand

We will be stronger The next time we're out there We are the ones that they have to fear We've seen a million faces fall Know that it brought us to it all (3x)
