

A serpent's heart beneath her smile  
Under the veil, Medusa's eyes  
A siren's song she sings at night  
Seducing all good men to die.

Poison lips, they hypnotize  
The widow spins hear web of lies

An evil witch, the fallen one  
A demon's kiss with a forked tongue  
The fabled whore of paradise  
She sucks my breath, she takes my life

Fly(fly), Lilith fly(fly high), to the sky(sky)  
Save my soul, Tormentor
