

# Nightmare (The Devil Inside)

Seven Witches

I've got this feeling and it just won't go Some dark intention  
in my mind you  
know

I walk these streets with madness on  
my mind  
Stay far away and don't you look  
behind

Cold dreary morning got no stars in my  
eyes  
Strayed from the pack now hear the  
hungry wolf cry  
Just passing through you'd better step  
aside  
Because if you don't you will be taken for a ride

Nightmare - trapped inside  
Nightmare - Look into my eyes  
Nightmare - Hear the children cry  
Nightmare - Got the devil, got the devil  
inside

As I take you by the hand  
I'm sure that you'll understand  
Come child I've got something for you  
You'll see the world and more before  
we're through
