Sunnydale High

Seven Witches

You know the moon is full tonight I'm guided onward by it's light Down to Sunnydale
Because the hellmouth calls to me It's god a pull you can't believe Here begins my tale

And nothing's gonna stop my reign

I've got to take the slayer out
Burn her down without a doubt
She alone defiles
Because the world will end tonight
But not without a bloody fight
Listen to my lies

And now I'm getting high on death Intoxicated with the thought of your last breath And if you want to live your life in endless night Just follow me on down to Sunnydale High

The gears of hate are turning Forces of good are learning That the end is near

So if you want to live your life in endless night Just follow me on down to Sunnydale High

But best laid plans go oft away
And now I know I'm gonna die
Caught within her snare
So resurrect my darkened shape
And all the earth I'll surely rape
Chosen one beware

Sunnydale High, Sunnydale High
