

Again I try and change my ways Something for some reason Takes
me from you again Time nor season (SEASON) Burnin' for a reason
Killin' myself with guilt Gave nothin' - taking all How my lif
e has changed - (2x) Was it ever sacred

Feel it... Let it go... I know I know...what you...feel

Step down on the slivering snake Rescue yourself from the prick
End it Make it fade

Can I get a witness Can I get a witness from this rage (RAGE) E
veryday (RAGE) Suffocate From the pain

What the fuck - can't believe what you said Motherfuckers out t
here Don't even know me Gave nothin' - takin' all How my life h
as changed

Feel it... Let it go... I know (what you said)

Step down on the slivering snake Rescue yourself from the prick
End it, make it fade

Get up, get up, get up, get up, get up Get up, get up, get up,
get up (2x)

Feel it... Let it go... I know

Step down on the slivering snake Rescue yourself from the prick
End it, make it fade (2x)
