

Crucified

Sevendust

So much pain to ease my simple mind
No hope - I've been crucified
And no one seems to care

The first time I knew you lied
I was crucified
My hate you wear for my cross you bear
It's for me I swear

The first time I knew you lied
I was crucified
My hate you wear for my cross you bear
It's for me I swear

What's with you
You leech off my desire
Faceless name
So untrue you're wasting away

The first time I knew you lied
I was crucified
My hate you wear for my cross you bear
It's for me I swear

The first time I knew you lied
I was crucified
My hate you wear for my cross you bear
It's for me I swear

(Don't you feel like a,)
(Don't you feel like a,)
(Don't you feel like a,)
(Don't you feel like a,)

The first time I knew you lied
I was crucified
My hate you wear for my cross you bear
It's for me I swear

The first time I knew you lied
I was crucified
My hate you wear for my cross you bear
It's for me I swear
