

# Crucified

Sevendust

So much pain to ease my simple mind  
No hope - I've been crucified  
And no one seems to care

The first time I knew you lied  
I was crucified  
My hate you wear for my cross you bear  
It's for me I swear

The first time I knew you lied  
I was crucified  
My hate you wear for my cross you bear  
It's for me I swear

What's with you  
You leech off my desire  
Faceless name  
So untrue you're wasting away

The first time I knew you lied  
I was crucified  
My hate you wear for my cross you bear  
It's for me I swear

The first time I knew you lied  
I was crucified  
My hate you wear for my cross you bear  
It's for me I swear

(Don't you feel like a,)  
(Don't you feel like a,)  
(Don't you feel like a,)  
(Don't you feel like a,)

The first time I knew you lied  
I was crucified  
My hate you wear for my cross you bear  
It's for me I swear

The first time I knew you lied  
I was crucified  
My hate you wear for my cross you bear  
It's for me I swear
