

(stop the man)
Fom endin up with all the chips so he can't
(promse him an only chance)
To have the freedom that's been takin from me

(you - can - try - to - lift - your - head - no)
You fucked up with me now live with the truth
Find a reason to lie (try)

Seems like it hasn't been long - I've given
(so much how could you hide)
You're sick with all the guilt you're never - forgiven
(you try to wash it away - wash it away)

(ask again) why all the dreams I had
Are now left broken
(punished for a wounded past)
Afraid to wake and find reality breathin
(why - has - life - been - taken - from - me)
I fucked up and now I live with the truth
With no reason to lie (I)

Feel like it hasn't been long - I'm driven
(to keep myself alive)
You're sick with all the guilty you're never - forgiven
(you'll never wash it away - wash it away)

(How can you live with yourself)
