

Another day away from home another trip
To kill another place I've never been
Another day in hell
Another day in a crowded room...another place
To bleed...another world that your blind to
That I've already seen

When I'm gone
Don't fill the space that still belongs to me
When I'm gone...say hello for me
When I'm gone
Think about what all this does to me
When I'm gone...say hello for me

Another piece of me is dead...and I'm
Afraid of the blind...leading the blind until
Was this all for something...that I give for
Nothin...stop with the fake delivery
Stuck in the middle I'm gone

When I'm gone
Don't fill the space that still belongs to me
When I'm gone...say hello for me
When I'm gone
Think about what all this does to me
When I'm gone...say hello for me
