

Forever after  
You killed my laughter  
All I've done  
Doesn't matter...self  
Create...Create...Create

Head trip drama  
With your head so in the cloud  
Never be the same  
Never forget the pain

Head trip drama  
With your head so in the cloud  
Never be the same  
Never forget the pain

Stuck in my head  
Every word you said  
And all of you is dead  
Create...Create...Create  
Create - Self-Destruction  
Create - Self-Destruction  
Create - Self-Destruction

Head trip drama  
With your head so in the cloud  
Never be the same  
Never forget the pain

Head trip drama  
With your head so in the cloud  
Never be the same  
Never forget the pain

Head trip drama  
With your head so in the cloud

Create - Self-Destruction  
(2x)  
Create - Head trip drama  
Create - With your head so in the cloud - Self-Destruction  
Never be the same - Self-Destruction
