

# Medicated

Sevendust

It takes time to blow  
Say it ain't so  
Stuck in the middle of it  
Two words to know  
Oh here we go  
We grow so used to it

Soon among the time  
How had we become so empty

It's over-complicated  
And we're all to blame  
Over-saturated  
Such a shame

It's all who you know  
Got time to tell  
We all fall victim to it  
A chemical  
Why have we gone  
Oh we're just used to it

Soon among the time  
How had we become so empty

It's over-complicated  
And we're all to blame  
Over-saturated  
It's such a shame  
When we can not feel  
How can we heal at all  
If we're over-medicated  
Then we're all to blame

Here we are  
once again  
How'd we get here  
Will it end

Look at you lost with separation  
Complicated  
There's no one left to blame  
You're just a shell of a man left wasted  
Medicated  
I'm standing on the outside looking in

It's over-complicated  
And we're all to blame  
Over-saturated  
It's such a shame  
When we can not feel  
How can we heal at all  
If we're over-medicated  
Then we're all to blame
