

# Nowhere

Sevendust

Is this the life you made  
The kind of life you fake  
Is there a point we break?  
Or do we sing that same old song  
And hope they play along  
(We follow)

We're well on our way now to nowhere  
(To nowhere)  
We're so far away from getting somewhere  
(From where getting somewhere)

Please stop the broken record  
Your worthless effort  
That makes you feel like God  
So play that song  
And watch it all go wrong  
(Where do we search to find the honesty  
In a world so fucked up and bleeding)  
Knowing we will follow

We're well on our way now to nowhere  
(To nowhere)  
We're so far away from getting somewhere  
Close to anything at all  
At all, at all  
At all, at all

We're well on our way now to nowhere  
(On our way)  
We're so far away from getting somewhere  
(From where getting somewhere)

We're well on our way now to nowhere  
(To nowhere)  
We're so far away from getting somewhere  
Close to anything at all  
Anything at all
