

The Truth

Sevendust

No more time for saving
What the hell did you give?
What the hell did you do?
Just more numb to waste it
You will mean nothing
You will be nothing
One more tragic instant lost

Right underneath
While you dream
We stay asleep now

Why does it always seem to rain when I want to see sunshine?
How come you never want to play the game?
Why does it always seem to fade when I want to be defined?
How come you never try to say my name?

One more time for raging
What the hell did you give?
What the hell did you do?
Won't be long to hating
You will mean nothing
You will be nothing
Your last tragic instant lost

Right underneath
While you dream
We stay asleep now

Why does it always seem to rain when I want to see sunshine?
How come you never want to play the game?
Why does it always seem to fade when I want to be defined?
How come you never try to say my name?

Say my name

Lost

Right underneath
While you dream
We stay asleep

Why does it always seem to rain when I want to see sunshine?
How come you never want to play the game?
Why does it always seem to fade when I want to be defined?
How come you never try to say my name?
