```
Fallin' down under the cracks
And now, I cannot make a sound
Forgive me if I ask for help
I'm crawling out of the bottom where my every thought
My every thought is consuming
Gimme some excuses, I need to know
If I was under, could I see myself on the floor?
If I should trip inside my mind
Would I be under control of it all?
Time, gimme time, gimme time, gimme
What do you think will help me?
My teeth, chatterin' with every thought
I need some prayers to be answered
I believe I'll be choking on my mind soon
Why won't you help me?
One more time, I expect to get ****
Gimme some excuses
You don't give a ****
If I was under, could I see myself on the floor?
If I should trip inside my mind
Would I be under control of it all?
Help me
Help me
If I was under, could I see myself on the floor?
If I should trip inside my mind
Would I be under control of it all, control of it all?
```

Help me
I'm under
