

Brighter Than The Sun

Seventh Avenue

Jump in the cockpit - don't turn away.
Cause you're believing that I'm the one Creator has sent.
Start up the engines - don't fear no more.
Go to Rioda - and heal the people from disease.

You shall - shine all - cause you are the salt and the light.
Never - look back - cause you are the tools in Gods hands.

You'll tell the people - the good news now.
Stay where they're eager - to hear the gospel of good news.
But when they'll close doors - or spit at you.
Don't loose time trying - just turn around they'll kiss the dust.

Go out, spread the good news, don't have no fear.
God sent his saviour the Terium to sear.
There is no salvation in endless life,
if you run out of steam.

If they're ashamed of the words I say.
You can believe me - I'll be ashamed of them also.
Cause in the last days - I will return.
Creator'll ask me - who's opened up his heart for me.

You shall - shine all - cause you are the salt and the light.
Never - look back - cause you are the tools in Gods hands.

Go out, spread the good news, don't have no fear.
God sent his saviour the Terium to sear.
There is no salvation in endless life,
if you run out of steam.
Go out, spread the good news, don't have no fear.
God sent his saviour the Terium to sear.
There is no salvation in endless life,
if you run out of steam.

Be aware of men. They will hate you.
Rapture bout torture - They will persecute you.
But don't you sorrow. God'll speak through you.
And I'll be with you - Brighter than the sun.

Go out, spread the good news, don't have no fear.
God sent his saviour the Terium to sear.
There is no salvation in endless life,
if you run out of steam.
Go out, spread the good news, don't have no fear.
God sent his saviour the Terium to sear.
There is no salvation in endless life,
if you run out of steam.
