

## Children

### Seventh Avenue

Waste my life and see tomorrow  
Waste my life and see today  
See this world full of pain and horror  
Why can't they understand?

Hear the children cry  
In this world of war  
See your mother die  
With her babies in her arms

Overfed with crime and terror  
Sitting, watching war TV  
Demonstrating people want to  
Live in peace and harmony

Hear the children cry  
In this world of war  
See your mother die  
With her babies in her arms

After all this time there never will be crime  
After all this time where children never die  
After all this time the sun is shining bright  
After all this time you'll feel no loneliness

Hear the children cry  
In this world of war  
See your mother die  
With her babies in her arms

After all this time there never will be crime  
After all this time where children never die  
After all this time the sun is shining bright  
After all this time you'll feel no loneliness
