## **One Last Goodbye**

**Seventh Wonder** 

Don't want you to go, is there no other way? I'll cherish this last kiss goodbye I will care for all you leave behind We won't let you go alone But we have made a tragic decision, because your wounds won't heal It's the final solution

When every day hurts And tears keep on falling, we're letting you go The shadows are calling One last goodbye We're all here beside you Your soul will fade like a rose in the dark, but your memory remains

Night after night, living a dream Finally feeling my blood again The notes in that song Kept my heart beating strong all the way I can see clearly now I'm tired of constantly sleeping I will open my eyes again So ready to live now

When every day hurts And tears keep on falling, we're letting you go The shadows are calling One last goodbye We're all here beside you Your soul will fade like a rose in the dark, but your memory remains

I'm flying high, aim for paradise
I'm hungry for life again
What a rush
Hold my family!
I'm never letting go!

When every day hurts And tears keep on falling, we're letting you go The shadows are calling One last goodbye We're all here beside you Your soul will fade like a rose in the dark, but your memory will remains
