

## After The Fall

### Sex Gang Children

Some blind men say 'yell to be heard'  
Saint Barbarone swollen like a drum  
Smell the blood, bullets on the floor  
Cruelty unleashed devouring the flame  
Love and hate will dominate  
I feared for the actor, I screamed for the stage!  
Angels and insects alone in their cage, after the fall her to h  
im  
A bad leg religion where madness is king  
Queen of assassination do not denounce me  
Stand on a drum, give up the throne!  
Hammer the wind that makes you sing  
Suck in the skin that you're living in  
After the fall, her to him, shaking a stick...

'Drink and drink to the teachers of selfishness  
And the vulgarity that follows!  
'Recht und ordnung!'
