

# Silly Thing

Sex Pistols

What you see, you can get  
Nothing's free, nothing's said  
Don't be fooled by the signs  
Don't read in between the lines

What you're gonna say  
What you're gonna do  
Now you've missed out once again  
But I thought you knew

Oh you silly thing  
You've really gone and done it now  
Oh you silly thing  
You really gone and done it now

Trouble here, trouble there  
People stop just to stare  
What's the use of wasting time  
Just move on, leave 'em all behind

What you're gonna say  
What you're gonna do  
Now you've missed out once again  
But I thought you knew

Oh you silly thing  
You've really gone and done it now  
Oh you silly thing  
You've really gone and done it now

Can't you ever depend  
On someone you call a friend  
When you see the naked eyes  
You don't even ask 'em why  
You don't even ask 'em why

Oh you silly thing  
You've really gone and done it now  
Oh you silly thing  
You've really gone and done it now
