

Soldiers Story

Shaggy

I'll be there for you
Oh baby, I'll be there
No matter how far away, ooh
I'll be there

Eye's wide to ceiling
Suddenly I awake from day dreaming
Find myself overwhelmed by this feeling,
Tried to kneel in, search for spiritual healing, yo
Now when they look for where you come from
No money, no future, no function
Everywhere that I look another last one, with a mask on
Every youth is a man's man, yo
I give a kiss to my girlfriend
Now I got to do right by the same thing
'Cause of her that they need a few good men
Dry your tears friend
I'll be back just don't know when

If you wait for me, just you wait and see
I'll be there, I'll be there
And if you pray for me, darling wait and see
I'll be there, I'll be there

I found a perfect opportunity
Don't you think I came to this decision easily
Every day away from you is an eternity
Wish that I could be there to witness your maternity, yo
I didn't plan on staying so long
Through the fear I need to stay strong
Through the left and the right we hear the same song
Hope I ain't drunk
Tryin' to get my paper chase on, yo
At times I find myself in danger
In the process I became a stranger
Now I find that I'm living in the age of, something major
And my life is what they wage ya, yeh

If you wait for me, just you wait and see
I'll be there, I'll be there
And if you pray for me, darling wait and see
I'll be there, I'll be there

From awakin' in my car I can feel it, best believe it
Every day I try to find a way to leave it
There's so much on my plate now to deal with
Young minds on this place will find a way to relieve it
Now the souls are the victims of surroundings
What we do to survive is just astounding
Parlé shamed by the circumstance fo founding get to crowning
Ain't no other opportunities

If you wait for me, just you wait and see
I'll be there, I'll be there
And if you pray for me, darling wait and see
I'll be there, I'll be there
