

Don't Wait Too Long

Shai

There comes a time
When everyone needs somebody
But girl don't wait too long
I see it in your eyes
Girl you're ready to love somebody
So girl, let's get it on

Hey lady,
Please tell me
Your name and how you've been doing
Said it seems to me, you need someone
To hold and keep you warm
Girl I know you've
Been searching for love and searching for someone
Girl a man like me
To be there for you
But girl don't wait too long

There comes a time
When everyone needs somebody
But girl don't wait too long
I see it in your eyes
Girl you're ready to love somebody
So girl, let's get it on

Lately, I've been thinkin about you every moment
And I'm wondering
If you feel the same
So baby don't wait
Because time
Is moving
Girl if you're ready
Come take my hand

There comes a time
When everyone needs somebody
But girl don't wait too long
I see it in your eyes
Girl you're ready to love somebody
So girl, let's get it on

Girl don't wait too long

Love you, love me
We can be together for eternity

Girl don't wait too long

There comes a time
When everyone needs somebody
But girl don't wait too long
I see it in your eyes
Girl you're ready to love somebody
So girl, let's get it on
