Shai

Tonight is the night
Of love and sweet romance
May I have this dance
I could make you feel special (feel so special baby)
If you give me half the chance
I'll always respect you (always respect)
I'll never neglect you baby (I'll never neglect)
And I think I'll find you'll trust
So prepare yourself
(Get your body ready)
For a night that can only be described as sensual
Tonight is gonna be

Sexual
Tonight is the night
That we make love all night and morning never comes
Sexual
The moon is so right for us to love
So right
Until one of us falls

We have been together
For some time and now I feel
Let me tell you just how I feel
Your resistance
To my persistence
Intensify your sex appeal
(I perspire)
I perspire with desire
Yes I do
Every single time that I think of you and
And when I feel your naked skin
This right moment
Brings out everything within
Tonight is gonna be

Sexual
Tonight is the night
That we make love all night and morning never comes
Sexual
The moon is so right for us to love
So right
Until one of us falls
[x2]

(Get your body ready)
You better get it ready baby
Better get your body ready for a good time
Because tonight is the night that I make you mine
Up against a wall
Beside a waterfall
I don't care where
As long as I can have it all
Better get your body ready for a good time
Because tonight is the night that I make you mine
I do it real good
I make it feel good

I'll make a situation
Body pushin'
Love that feels good
[Repeat: til' song ends]
