

To Get To Know You

Shai

This is a story about passion
Check it out

You are an angel, angel
You look like the answer to all of my prayers
Meet me in heaven, girl I'll see you there

You are a stranger, a stranger
But it feels like I've known you for all of my life
I'm havin' daydreams of us as husband and wife

So tell me what can I do
Just to get next to you
I wonder what I could do
Just to get to know you

What can I do
Just to get next to you
I wonder what I could do
Just to get to know you

You're makin' me crazy, lady
I'm on a mission to meet all your friends
Got to make real sure that I see you again
And again and again and again

I can't let it faze me, baby
I can't let desire and passion control
I want to fall in love with body and soul

So tell me what can I do
Just to get next to you
I wonder what I could do
Just to get to know you

What can I do
Just to get next to you
I wonder what I could do
Just to get to know you

Just to get to know you
Oh, what should I do
To get to know you
Just to get to know you

I would climb the highest mountain side
I'd run around the world
About a thousand times
Just to get to know you

I would climb the highest mountain side
I'd run around the world
About a thousand times
To know you

What can I do
Just to get next to you

I wonder what I could do
Just to get to know you

What can I do
Just to get next to you
I wonder what I could do
Just to get to know you

What can I do
Just to get next to you
I wonder what I could do
Just to get to know you

What can I do
Just to get next to you
I wonder what I could do
Just to get to know you
