

# Waiting For The Day

Shai

The look in my eyes, there's a genuine attraction  
Your love has taken over me  
And I'm so surprised how I'm controlling my intentions  
'Cause in my heart I know you're not ready, baby

I'm living off a fantasy, dreaming of how it will be  
The touchin', the kissin', is what I'm truly missin'  
'Cause if I had my way  
You'd be lyin' here next to me

I'm waitin' for the day that you will stay all night  
Baby I'm waitin' for the day you'll say the timing's right  
I don't need no explanation, girl I know just how you feel  
The love is real, your love is real

I'm waiting, I'm waiting  
I'm waiting, I'm waiting for the day

Girl I can't lie, there's nothing I want more than  
To feel your body close to mine  
But I'm gonna try to understand what you're feeling  
I won't let you put your heart on the line

Baby be mine but I have not forgotten  
I sincerely made a promise to you  
Things come in time, so patiently awaiting  
For the moment when you say I do, oh

I'm waitin' for the day that you will stay all night  
Baby I'm waitin' for the day you'll say the timing's right  
I don't need no explanation girl, I know just how you feel  
The love is real, the love is real

I'm waitin' for the day that you will stay all night  
Baby I'm waitin' for the day you'll say the timing's right  
I don't need no explanation girl, I know just how you feel  
The love is real, your love is real

Divine talk to 'em man  
Yo I'm so excited 'cause I know I'm in love  
And it's this special kinda feelin' I just can't get enough of  
I really tried to fight it, didn't think I would fall

But let me tell ya 'bout this lady, so yo check it out y'all  
I really think she's the one for me  
The type of girl that makes me wanna give up other people's property  
I really, really like the way that I feel and the way that I feel for you is  
for real

All I wanna do is be good to you  
And give you all the love I wanna give to you  
I hope you realize that this feelin' is right  
And I'll be waitin' for the day when you will spend the night

I'm waiting, I'm waiting  
I'm waiting, I'm waiting for the day  
I'm waiting, I'm waiting

I'm waiting, I'm waiting for the day  
I'm waiting, I'm waiting  
I'm waiting, I'm waiting for the day

I'm waitin' for the day that you will stay all night  
Baby I'm waitin' for the day you'll say the timing's right  
I don't need no explanation girl, I know just how you feel  
The love is real, the love is real

And I'm waitin' for the day that you will stay all night  
Baby I'm waitin' for the day you'll say the timing's right  
I don't need no explanation girl, I know just how you feel  
The love is real, your love is real
