

Steel, slides under my skin
Ink, is not my only sin
Should I fit in
Would you think better of me
If my body's got wounds in color
Watch me mother nature

Hey what ya looking at
Fear stuck on my back
Reflecting in your eyes
Let's get scarified

Som' say I'm off the hook, but the hook I want
Du you live by the book, well I really don't
Oh people don't you freak out, lonely souls
I'm updating the tint on my body pimped, 'nothing at all

Veins, should web cut 'em loose
Pain, is my only muse
Should I begin cut a finger or two
Then my body's got wounds in dolor
Watch me mother fucker

Som' say I'm off the hook, but the hook I want
Du yu live by the book, well I really don't
Nobody hears me out, this is clinical
I'm updating the screams of my body pimped
'My only call

Somebody hear me I am not a criminal
Somebody read me it's getting' critical
Your education, your erudition
It's Like the ink on me, it's unalterable...
I'm updating the screams of my body pimped
'My only call

Yeah yeah yeah yeah, just get yourself together

Yeah yeah yeah yeah, watch a little further
When I'm updating the tint on my body pimped
Watch better
