

## Black Sky

Shakespears Sister

come on, tune in to the life  
black sky blue world green eyes

and you'll come running  
to the dark side of the moon  
and 'though you'll never find us  
we'll still be watching you

come on, tune in to the life  
black sky blue world green eyes

no peace for the wicked  
no rest for the good  
no use in pretending  
that love is in your blood

come on, tune in to the life  
black sky blue world green eyes

come on

i ain't gonna sing that devil shit

come on
