

Come Along With Me

Shakin' Stevens

Come along with me I'm gonna set you free
We're gonna see a rock'n'roll band
Come on and jump and shout
Now the school is out
Won't you let me take you by the hand

You know I love you baby I'll never let you go
You know I love you girl like a real world
And we will have each other
Come on and rock with me
And baby you will see
That I'm your only lover yeah

You know I love you baby I'll never let you go
And after it's all through I'm gonna be with you
And we will be together
I will a love you strong
I will a love you long
And I will leave you never

Come along with me I'm gonna set you free
We're gonna see a rock'n'roll band
Come on and jump and shout
Now the school is out
Won't you let me take you by the hand
