

Diddle !

Shakin' Stevens

Diddle you tell me you love me,
diddle I act like a fool.
Love was a standing ovation,
I kept on breaking the rules.

Diddle you tell me you love me,
diddle you ask me to stay.
Love had to be where I'm at,
but I turned my back as a rule.

Without you, baby what can I do,
without you, baby I feel blue.

Diddle you tell me you love me,
diddle I make you feel sad.
Love was a leading attraction,
all of the things that we had.

Diddle you tell me you love me,
diddle I say you're all mine.
Love wasn't just an illusion,
and our love was easy to find.

Without you, baby what can I do,
without you, baby I feel blue.

Well, if you ask me again before you count to ten,
I'll be ready to knock an you door.
Without you, life isn't fun anymore.

Without you, life isn't fun anymore.

Diddle you tell me you love me,
