

# Get Together

Shakin' Stevens

In life, and in our dreams  
It's never quite like, what it seems  
In a world of love and pain  
The futures like a story untold

The changes of the seasons  
Don't change their bitter hearts  
Some just can't find a reason  
To wanna make a brand new start

Why can't we just get together  
Things can't stay like this forever  
Why can't we just get together right now  
Get together, please get together  
Why can't we just get together right now

It seems so sad and crazy,  
That we just can't embrace  
A life in peace, as one  
To make this world a better place

Why can't we just get together  
Things can't stay like this forever  
Why can't we just get together right now  
Get together, please get together  
Why can't we just get together right now

Can it ever be  
Will we ever see  
If we wanna see  
Can it ever be  
The world of our dreams'  
Get together,

Get together,  
please get together  
Why can't we just get together right now

Let's get together, Let's get together,  
C'mon C'mon yeah, let's get together  
Let's get together, c'mon! let's get together,  
Get together, let's get together  
Let's get together, let's get together  
C'mon, let's get together  
C'mon!!
