

# How Could It Be Like That

Shakin' Stevens

Looking back, when the times we're good  
We grew up together in our neighbourhood  
Being friends and our love was strong  
But then came the day when you we're gone,  
Yeah gone, yeah gone  
How could it be like that?  
How could it be like that?  
Be like that.

Remember when we couldn't do no wrong.  
Like everything, like in a real love song.  
Oh sweet little woman when you we're mine.  
Thought we had a love till the end of time.  
Yeah time yeah time.  
How could it be like that?  
How could it be like that?  
Be like that.

We talked on the phone, we said we'd meet again.  
Down by the river when we met back then.  
I closed my eyes and you weren't there.  
I'm burning inside knowing that you care.  
Yeah care yeah care.  
How could it be like that?  
How could it be like that?  
Be like that.

How could it be like that?  
How could it be like that?  
Be like that.  
Be like that.  
Be like that.  
How could it be like that?
