

I Fell Apart

Shakin' Stevens

Well you say your love would suit me right
But you walked out on me last night
You wrecked my life you took my everything
You went down town you pawned my ring
But when you broke my heart, I fell apart

You said our love could never die
But I'm left alone to sit and cry
You was the sweetest that I'd ever had
How to hell could you be so bad
But when you broke my heart, I fell apart

We had a love oh so good
I loved you strong I was sincere
But you left home, you went away
Well please come back it's time to say

Well you say your love would suit me right
But you walked out on me last night
You wrecked my life you took my everything
You went down town you pawned my ring
But when you broke my heart, I fell apart

(solo)

We had a love oh so good
I loved you strong I was sincere
But you left home, you went away
Well please come back it's time to say

Well you say your love would suit me right
But you walked out on me last night
You wrecked my life you took my everything
You went down town you pawned my ring
But when you broke my heart, I fell apart

When you broke my heart, I fell apart
When you broke my heart, I fell apart
