

# I Might

Shakin' Stevens

I might, ooooh  
I might just fall in love with you tonight  
If your kiss linger still, and my lips sing it well  
Then I just might

I could,  
I could surrender in your arms tonight  
Just hold me close once more, and kiss me like before  
Then I just might

Lately I found, my resistance is down  
Everytime when I look in your eyes  
My head starts to spin, I try not to give in  
But if you catch my heart by surprise

I might, ooooh  
I might give up my heart without a fight  
I never thought I would, but now I think I could  
And I just might

What can I do, when a girl sweet as you  
Can kiss all my defences away  
Tonight you may find, that you made up my mind  
Was it's getting much harder to say

I might, ooooh  
I might give up my heart without a fight  
I never thought I would, but now I think I could  
And I just might

I might, ooooh  
I might just fall in love with you tonight  
If your kiss linger still, and my lips sing it well  
Then I just might

I could,  
I could surrender in your arms tonight  
Just hold me tight once more, and kiss me like before  
Then I just might

I might, just fall in love with you tonight  
I never thought I would, but now I think I could  
And I just might
