

# Lonely Too Long

Shakin' Stevens

The morning sun shines through, but it don't ease the pain  
Although the sky is blue, it feels like rain  
It's hard to leave behind, what we once knew  
But life goes on and I'll know you feel it too

We've been lonely, lonely too long  
We've been lonely, lonely too long

Good memories will stay, and last through the years  
Bad times , forget 'em , they're yesterdays tears  
It won't be easy but, we're gonna see it through

We've been lonely, lonely too long  
We've been lonely, lonely too long  
Lonely too long

Right now well it might feel like  
There's a mountain to climb  
But one day we'll lose these blues yeah  
It's just a matter of time, yeah

If this is what it seems for you and I  
The darkness of our dreams will fade and die  
This is our chance we could, forget the troubled past  
Oh, won't it be so good to find peace at last

We've been lonely, lonely too long  
We've been lonely, lonely too long  
We've been lonely, lonely too long  
We've been lonely, lonely too long

Lonely too long  
Lonely too long  
Yeah, lonely too long  
Lonely too long  
Yeah, lonely too long
