

# So Long Christmas

Shakin' Stevens

We're gonna drink champagne like it's going in and out of style  
I'm gonna burn that plastic on things that I can't afford  
We're gonna party all night like we've never ever partied before

So long Christmas  
I'm-a- rolling in another New Year

So tell your friends and your neighbours and tell all your family

Well it's all on the house, I'm gonna treat my friends tonight  
We're gonna eat 'til we drop, we gonna dance 'til we fall on the floor

So long Christmas  
I'm-a- rolling in another New Year

Well, forget all your troubles you had this year  
A few regrets and a few little tears  
But every New Year we're gonna lay that burden down  
In a friendly atmosphere in the company of friends  
We're all gonna join when the hour descends  
Auld Land Syne never heard it like we're singing it now

So tell your friends and your neighbours and tell all your family

Well it's all on the house, I'm gonna treat my friends tonight  
We're gonna eat 'til we drop, we gonna dance 'til we fall on the floor

So long Christmas  
I'm-a- rolling in another New Year, yeah!

Well, forget all your troubles you had this year  
A few regrets and a few little tears  
But every New Year we're gonna lay that burden down  
In a friendly atmosphere in the company of friends  
We're all gonna join when the hour descends  
Auld Land Syne never heard it like we're singing it now

We're gonna drink champagne like it's going in and out of style  
I'm gonna burn that plastic on things that I can't afford  
We're gonna party all night like we've never ever partied before

So long Christmas  
I'm-a- rolling in another New Year  
So long Christmas  
I'm-a- rolling in another New Year  
So long Christmas  
I'm-a- rolling in another New Year
