

With My Heart

Shakin' Stevens

Well let me tell you, about a girl
The only one for me in the world
She went a long, long way away with my heart

You red hot lips, your fingertips
Oooh, you make my heart flip-flip
You went a long, long way away with my heart

Whenever I was lonely you always used to come around
We gotta whole lotta lovin' and a whole lotta huggin' down
And when I call you on the phone, to meet you way out of town
Oooh well on that day, yea I caught you foolin' around

She told her friends, before she ran
There never ever be another man
She went a long, long way away with my heart

Whenever I was lonely you always used to come around
We gotta whole lotta lovin' and a whole lotta huggin' down
And when I call you on the phone, to meet you way out of town
Oooh well on that day, yea I caught you foolin' around

Mmmm, so sweet so fine
I really thought that girl was mine
She went a long, long way away with my heart

She told her friends, before she ran
There never ever be another man
She went a long, long way away with my heart

She went a long, long way away with my heart
She went a long, long way away with my heart
